www.candy-group.com

RECOMMENDED BY YOU, MADE BY CANDY.

Innovation is only worthwhile if it benefits users. Candy understands this.
That's why we created domestic appliances that respond to everybody's needs.
How? Simply by listening to people like you.

DESIGNED FOR YOU

Our mission: create high quality products which cater for your needs.

This is why we spend a lot of time talking to our users,
to really understand how to improve your everyday life.

Recommended by you, made by Candy.

70 YEARS OF EXPERIENCE

For over 70 years, we've been developing smart, original domestic appliances.

As a market leader, we know the importance of innovation and are forever
striving to launch ingenious items which have been meticulously fine tuned
to ensure a truly unique user experience.

ITALIAN LIFESTYLE

Our appliances are designed having in mind how much you like spending time
with your friends and family, enjoying a tasty and healthy meal, with fresh, perfectly
cooked food. Not forgetting that you love to wear your favourite designer's clothes,
perfectly washed and as bright as the first time you wore them.

OUR HISTORY

Always alert to changing history, Candy is now celebrating 70 years of impressive success built on our philosophy – listening to the people we love: you. Thanks to our Italian roots, in which design skills meet the creativity that has always belonged to our culture, the domestic appliances we produce never fail to satisfy expectations.

CANDY 70
YEARS

It was 1945 when the first all-Italian washing machine was produced: a Candy.

Since then, we've become an intrinsic part of family life by simplifying the way we carry out day-to-day domestic chores. Over time, our range has broadened to include all household appliances: washing machines, fridges, dishwashers, microwaves and winecoolers. Here at Candy, we're passionate about developing unique, innovative products and exploring untapped areas.

With this spirit we have developed the first washer dryer, the first super slim washing machine, the unique Aquamatic and the most capable dishwasher in standard dimension.

All this because we know you have special needs.

CANDY: 70 YEARS OF RECORDS

1945

The 1st Italian washing machine called "Modello 50".

1978

- Candy is the first Italian company to produce No-Frost refrigerators.
- The ZOOM system in washing machine make it possible to shorten wash times considerably.

1986

The Candy Alisè is the first washer-dryer in Europe with an internal condenser

From 2000 onwards

Candy is the first to introduce 8/9/10/11 kg washing machines, dryers up to 9/10 kg and top loaders up to 8 kg.

2006

The GrandÓ washing machines have the largest door on the market.

2014

Evospace Maxi Plates is the first dishwasher with capacity for 16 plates.

2012

The Maxi ovens have the largest cavity, in standard dimensions, on the market.

1970

Brava is the first super-automatic dishwasher that can manage up to 8 place settings and reduced loads.

1960

Candy Automatic 3 is the first washing machine with modern features, like automatic operation with suspensions and a glass window.

1989

Candy Holiday is the first 33 cm washing machine which is suited to standard bathroom furniture. Candy also launches the first washer-dryer with a depth of just 44 cm.

2010

Aquavision revolutionises the condensation collection system in dryers.

2015

Simply-Fi is the first range of domestic appliances connected via Wi-Fi.

2004

The Futura dishwashers are the first to wash 15 place settings.

1980

- A dishwasher, cooking hob and oven in just one appliance: the TRIO arrives on the market.
- Candy introduces the first 5-burner cooker in 60 cm.

DISHWASHERS	38

simply | Fi[®]

CONNECTED TO YOUR LIFE.

THE FIRST RANGE OF
DOMESTIC APPLIANCES THAT
COMMUNICATE TO YOU,
WHEREVER YOU ARE.

SIMPLY-FI

Family, friends, work, and passions: it is more and more common for people to organise their lives through a smartphone. Why not use them around the house too? That's how Candy simply-Fi was born, the first complete line of electrical appliances that are always connected via Wi-Fi. Washing machine, fridge, dishwasher, oven, hobs: it's now possible to communicate with them wherever you are – via smartphone or tablet – thanks to the useful, intelligent functionality of the simply-Fi App.

SIMPLY-FI ELITE OVEN

PRE-HEATING

It's possible to activate oven pre-heating when you're out of the house so you can get cooking quicker when you're back.

MENU À LA CARTE

You're provided with assistance in choosing the cooking setting that's most adequate to your needs (chicken, biscuits, bread, pizza...). As well as the pre-saved recipes, it's also possible to create and save personalised cooking settings on the App.

CLEANING TIPS

The App informs you when is the best time to clean the oven, preventing food residue from hardening and becoming more difficult to remove.

INFO SYSTEM

This flags the status and ensures smooth functioning of electrical appliances wherever you are – in case there's a lack of power, for example – and provides practical advice.

SIMPLY-FI INDUCTION HOB

REAL TIME

The App lets you know in real time when the hob is hot, how strong the heat is, how much cooking time is remaining and also alerts you if there is a lack of power.

INFO SYSTEM

This flags the status and ensures smooth functioning of electrical appliances wherever you are and provides practical advice.

SIMPLY-FI ELITE COOKER HOOD

SMOKE DETECTOR

The App alerts you to the presence of smoke in the kitchen, allowing you to take action in real time.

INFO SYSTEM

This flags the status and ensures smooth functioning of electrical appliances wherever you are – in case it's time to clean or change the filter, for example – and provides practical advice.

SAFE LIGHT

This enables you to switch on the cooker hood light remotely, which comes in handy at night.

AIR CLEANING

This function can be activated in case you forget to open a window before leaving the house.

SIMPLY-FI EVO SPACE DISHWASHER

MENU À LA CARTE

The App recommends the most appropriate programme according to the load details selected by the user (temperature, cycle duration, dirtiness level...), and can be easily saved. Moreover, the Quick Start function allows you to directly access the last programmes you used.

START DELAY AND TIME REMAINING

This allows you to launch and modify cycle programmes at any time. The App also keeps you constantly up to date on how much time is remaining in the wash.

INFO SYSTEM

This flags the status and ensures smooth functioning of electrical appliances wherever you are – in case you've run out of salt or rinse agent, for example – and provides practical advice.

KRIÓ SUITE

SUPER FREEZING

The App enables you to remotely increase freezing power for a maximum of 34 hours. This is a great feature because, after you've done your shopping, the freezer can be set to the ideal temperature for filling.

SMART COOL

Too often do we forget we've put a bottle of something or other in the freezer. The App will make a noise to let you know when bottles have reached optimum serving temperature.

INFO SYSTEM

This flags the status and ensures smooth functioning of electrical appliances wherever you are – in case you've left the fridge door open, for example – and provides practical advice.

CHILD LOCK

This allows you to lock the display when you're out so that nobody can alter your settings.

GRANDÓ SIMPLY-FI WASHING MACHINE

REFRESH TOUCH

It's no longer necessary to rush to take the laundry out of the washing machine. Once the cycle is complete, the App gives you the possibility to initiate short spin cycles to keep your laundry fresh and fragrant if you're unable to take it out immediately.

MENU À LA CARTE

The App assists you in choosing the washing programme that's best suited to your needs (temperature, cycle duration, dirtiness level, spin, extra rinse, easy iron...). It's also possible to save your preferred washing cycle. What's more, the Quick Start function allows you to directly access the last programmes you used.

START DELAY AND TIME REMAINING

You can launch and modify washing programmes at any time. It's no longer necessary to be at home to keep on top of the laundry. The App keeps you constantly up to date with how much time is left on your cycle.

The background of the entire page is a photograph of a very tall stack of white ceramic plates and bowls. The stack is composed of many individual pieces, creating a sense of depth and volume. The lighting is soft, highlighting the edges of the dishes. The text is overlaid on the upper portion of the stack.

MAXI CAPACITY

A RANGE OF DOMESTIC APPLIANCES
WITH BIG IDEAS.

MAXI CAPACITY

Thanks to constant dialogue with its users, Candy has understood that the great obsession of our time is space. For this reason, we've developed a range of domestic appliances that combine high performance with exceptional capacities to help keep you in step with the pace of modern life.

MAXI FRIDGE

STORE ALL FOOD SIZES

Do people prefer a more spacious fridge or one that saves more energy? In order to meet everyone's needs without compromising on energy efficiency and respect for the environment, this range is characterised by increased height and capacity, updated design and soft lines. Because our way of thanking you is simply to listen to what you need.

MAXI CAPACITY

The new KRIÓ SUITE fridge stands 187 cm tall, has been totally renewed to make a perfect bond between design, ergonomics and spaces organization. The new cabinet, the new slimmer features, the removable and deeper shelf and door balconies gives at the same time a perfect space optimization, reaching a total gross capacity OVER 320 liters.

MAXI FLEXIBILITY

The new KRIÓ SUITE brings you more space to organize your food, thanks to the new internal design of the Sky LED and Sky Fan, together with the all-new adjustable drawers and shelves: the need for more flexibility is satisfied with stylish and useful features and will help you take control of your kitchen like never before.

MAXI DISHWASHER

BIG ENOUGH TO FIT THE WHOLE WORLD INSIDE

We all adore cooking for friends and family. Now more than ever, people prefer home-cooked dinners rather than going out to eat. But to show off your culinary skills to big audiences, you need a dishwasher that's ready for anything. Candy understands this. And that's why we've pushed the boundaries even further by creating a dishwasher able to take up to 16 sets of tableware. EvoSpace 16 combines record-breaking capacity with unbeatable washing quality. Thanks to Candy, hand washing up is a thing of the past.

MAXI PLATES

The Maxi Plates system is unique because it gives you the possibility to load and wash even the largest items – up to a record 8 x 34,5 cm plates – without wasting space in the lower XXL basket, which has no fixed grilles. Instead, it's made of a pair of flexible lateral supports plus a three-position central rotator fitted with eight Soft Touch silicone caps to guarantee maximum care for your Maxi Plates – not just the biggest, but also the heaviest and most precious (34.5cm max diameter).

MAXI CAPACITY AND MAXI LOAD FLEXIBILITY

Load possibilities multiply thanks to the combination of the Maxi Plates system and the new Easyclick system, which allows you to adjust the position of the upper section, even when completely full.

MAXI WASHING MACHINE

HIGH LOAD CAPACITY

Thanks to a load capacity of up to 10kg, all families can find the best washing machine to fit their needs. The Candy range is also the best solution for people who do not have the time to do the laundry often, allowing them to wash their clothes only once per week, thanks to the large loading capacity.

MAXI PERFORMANCE

High load capacity means also flexibility: with 10kg washing machine it is possible to wash laundries from 1kg to 10kg, and with MPS+ it is also possible to have excellent washing results in less than one hour. High loads doesn't mean high consumptions, indeed all Candy washing machines have the A+++ energy class.

WASHING MACHINES

MORE FLEXIBILITY FOR ALL YOUR NEEDS.

With Candy's new range of washing machines, everyone can find the right model for their needs. Every machine has a range of pre-set washing programs, and the innovative Mix Power System+ ensures the most efficient rapid wash ever: a perfect result in just 59 minutes.

And that's not all. The new doors are the largest and most comfortable on the market, including the **slim version**, the ideal solution if you have limited space but don't want to miss out the **ideal combination** between performance and comfort in use.

TOP LOADER WASHING MACHINES

SUITED TO YOUR SPACE NEEDS.

If you need a washing machine suitable for restricted spaces, top-loaders are the answer. Candy understands this, and has also implemented a series of innovative functions in its top-loading machines, particularly the **Mix Power System+**, which guarantees the most efficient rapid-wash cycle on the market. Every new innovation has been designed to make your life easier. The utmost safety is ensured through the innovative **Gentle Touch Opening System**, which is the best solution for a more comfortable access to the laundry.

DRYERS

THE SMARTEST WATER COLLECTION.

Those looking for the right dryer prioritize capacity, ease of use and functionality. Candy knows it and has designed and patented the EASY CASE, a unique water collection system that gives full visibility of the water level and maximum ease of emptying. And because size matters, Candy has been the first to introduce a 10kg capacity dryer, also offering maximum energy efficiency with the Heat Pump versions.

DISHWASHERS

PERFECT COMBINATION OF PERFORMANCE AND SPACE.

Nowadays, dinners out with friends are increasingly being replaced by home-cooked suppers. What is the only challenge? The need to wash lots of plates, fast. Candy understands this, and that's why it has created the new EvoSpace line, the first dishwashers in the world with enough space for 16 place settings in standard dimensions. It's a case of quantity and quality, then, in one standard-size dishwasher: the ideal solution for all modern kitchens.
